Miscellaneous	2 00
Total	$ 15 81
Balance	$2 685 40

Supt Davey was given power to purchase the new flushboards at the lakes to be placed in position before the end of the month Supt Davey's report was as follows

[illegible] water will be [illegible] Mr Merritt's report was received and placed on file Supt Davey's annual report is as follows

To the Board of Water Commissioners of the City of Middletown

[illegible] the condition of the water works system of the city of Middletown for the year ending December 31st 1898

[illegible] 6511 feet of pipe [illegible] 1898 [illegible] Montgomery street [illegible] Orchard [illegible] street [illegible] 6 inch [illegible] 665 feet [illegible] 6 inch [illegible] 2 6 inch [illegible] 660 feet [illegible] 2 6 inch [illegible] 775 feet

We [illegible] Nassau street 120 feet [illegible] Hamilton street 518 feet [illegible] 20 feet

Although [illegible] has been [illegible] the [illegible] at Monhagen Lake [illegible] the [illegible] from [illegible] gates have been purchased [illegible] use of the public

A considerable amount of work has been done at the Middletown Lake [illegible] town with good results the water [illegible] which is the only drawback to all wooden flushboards and the great expense of [illegible] the stone flushboards now being [illegible] the water to [illegible]

[illegible] feet stone wall has been built around the shores and the earth excavated with [illegible] so as to bring the water to the wall on the north county road [illegible] A portion of the wall at such [illegible] necessary to raise the road was removed [illegible] into the reservoir as [illegible]

A wall six feet high and four hundred [illegible] has been built on the inside of the dam on the gatehouse [illegible] preventing the washing of the dam

An overflow [illegible] built with a [illegible] wide enough to carry away the water [illegible] a bridge over the same 56 [illegible] feet wide [illegible] has been built around the lake

On examining the character of the [illegible] for the overflow of Monhagen Reservoir [illegible] at the low dam formed by the roadway across the overflow [illegible] road [illegible] and north loosely [illegible] and is not water tight The ground [illegible] several feet deep is very stony and pervious and when the reservoir [illegible] eight or twenty one or twenty two feet a great deal of water is lost by leakage at this point The leakage will probably be stopped by building [illegible] new dam 300 or 400 feet long at this point with a masonry cover wall [illegible] enough to cut off the leak

Respectfully submitted
F W Davey Superintendent

Depth of lake March 1st Monhagen 21 feet 11 inches March 11th 22 feet 9½ inches Rise 1 foot 2½ inches March 11th 20 feet 10 inches Rainfall 1 46 inches 1 02

On motion of Mr Dickson the report was laid [illegible] until next Saturday night

The Traction Company Matter.

W B Kaye went to New York Saturday and the hearing before the referee in the Traction Company matter was completed The next move will be a motion for the confirmation of the referee's report and the appointment of a permanent receiver This will probably be done within a month

ON THE GREEN DIAMOND

Middletown to Be Represented on the Manhattan College Team.

The outlook for a strong baseball team at Manhattan College the coming season is very bright Only two members of last season's crack team have been lost by graduation and together with the seven remaining members and the new arrivals at college there is some excellent material from which to select one that will be able to cope with any college team in the country Middletown will undoubtedly be represented on the team this year inasmuch as Peter Agnew one of this city's most promising ball players is among the collegians who are training for the team Timothy Sullivan Jr a law student and a former resident of this city is also among the host of candidates for the team The schedule of games provides for games with Yale Harvard the New York, Columbia Wesleyan University of Pennsylvania and the games of other prominent colleges

STREET SUPERINTENDENT REED

Sunday's Heavy Storm Makes Work for a New City Official.

A H Reed has resumed the duties of street superintendent and he has had more handshaking to do than a candidate in a campaign His reappearance was to give especial pleasure to the merchants on the business streets

Mr Reed found plenty to do for the torrents of water which fell during Sunday afternoon and evening Quite a stream was started many of the streets both carriage and foot ways were [illegible]

The house on King and Mill streets was washed out the gratings leading to the sewer and for a few moments [illegible] and extended from curb to curb [illegible] of the sidewalks on both sides of the streets [illegible] dollars and by prompt work [illegible] damage got men at work [illegible] the sewer holes open with brooms

FUTURE OF FIRST REGIMENT

To Be Continued as a National Guard Organization.

Major Emmet is authorized to make a statement that the First Regiment will be continued as a national guard [illegible] The Fahnestock Artillery will [illegible] Dr Phillips will take [illegible] Yorkers Mr Verner [illegible] and Hudson companies will [illegible] Newburgh

Major Emmet will be [illegible] to know that the companies which [illegible] of Poughkeepsie and Hudson [illegible] maintain and mother to be [illegible] among the quarters

ON THE TIP OF THE TONGUE

Robert Bull, a resident of Circleville, who is well along in years, stood at the Erie James street station, a few days ago, looking intently at the switches on the site of the old Taylor House.

"What are you thinking about, Mr. Bull," an acquaintance asked.

"Why," he replied, "I was thinking about the time I used to catch catfish in a hole right out there. Yes sir, right out there where those tracks are, and they were rattling good-sized catfish, too."

Another man from the country has been trying to mail a letter in a fire alarm box. It happened on Hanford street at Highland avenue, and a citizen who saw the act was asked where the place to put the letter was. He was told to break the glass, take the key out and open the door. The man actually started to break the glass when he was told that the box made the fire bell ring, when he looked up the pole and asked: "Where's the bell?"

Corporal Cashman, who was recently mustered out of the 69th Regiment, saw Field & Hanson's minstrels at Nashville, Tenn., while there, and he says they gave just as poor a show there as they did here.

A gentleman from Tuxedo, who was talking on an Erie train, a day or two ago, was heard to say that during the past year thirteen deer have been hounded to death and their mutilated carcasses found just outside of the park.

L. P. Calkin, of Binghamton, and his son, T. J. Calkin of Yonkers, were in this city, Sunday. Mr. Calkin, Sr., was formerly a mail clerk on the Erie, and Water Commissioner Ira Dorrance was a fellow clerk. Mr. Calkin, who married a daughter of the late N. W. Vail, is now in the dry goods business, and his son is connected with a large hatting industry at Yonkers.

E. A. Brown engaged Mr. Calkin in conversation regarding the beet sugar industry at Binghamton, and the latter said:

"Our industry is no longer an experiment. It is an assured success. It was virtually a success before they gathered the product of the first year. The farmers are so well pleased with it that they will greatly increase the product for coming year."

Mr. Calkin said: "Binghamton will have great love for Middletown. The exchange of theatrical courtesies, it has come of late years, will be of advantage to both cities. Excelsior Hook & Ladder Company of your city, which was visited us on several occasions, has done much to this end."

The Young Men's Republican Club has decided to issue keys to its members, and it will be done at the next meeting. It seems that some of the young men who attend the dances given in the rooms used the rooms for a sort of smoking place between dances, and anybody, of a pretty tale-e being told about it. This was by two of one couple there recently.

A man who sees humor in everything said, Saturday:

"I noticed that a plumber's horse was tied on King street, a day or so ago, and that he was industriously endeavoring to destroy a water box by pawing at it."

"I saw a boy strike another boy in the head with a snow ball out on North street, the other day, and it was funny to see the laughed one when saw the perpetrator did. It was a sort of a wintry or course, but it sounded like an appreciative laugh."

Whenever Sheriff Strong puts in an appearance here, and it's not very often, the question generally arises as to who is going to be hanged up. The sheriff was here Saturday, and he seemed to be a very busy man, but all the information that could be gleaned from him was that he came here to get a change of air.

It is quite evident that Port Jervis people are not hankering for the "Chimes of Normandie" company of this city to go over the mountain just now. A local company is arranging to give "The Gondoliers" there at an early date.

Roumania Bringing Dead Heroes.

WASHINGTON, March 13.—Secretary of War Alger has sent the following order to Major General Wesley Merritt at Governors Island, N. Y.: "By direction of the president you will, upon the arrival of the Roumania with the remains of the soldiers who were killed or have died at Santiago and Porto Rico, fire a fitting salute, order all flags half mast and detail a sufficient guard of honor to see the caskets taken off the ship and expressed to their former homes. The Roumania is expected to arrive very soon. Will telegraph you as early as possible the exact time."

Railroad Collision Kills Two.

NAUGATUCK, Conn., March 13.—In a head on collision between two freight trains near Bradley's station, on the Highland division of the New York, New Haven and Hartford railroad yesterday morning Engineer George Dean of Hartford was buried under his cab and instantly killed, and his fireman, Dan Kennedy, of Danbury, died a few hours later. The engineer and fireman on the other train escaped by jumping. Several brakemen were injured but none fatally. It is claimed that the collision was due to the fog.

Senor Rivera Coming.

PONCE, Porto Rico, March 13.—Senor Munoz Rivera, former secretary of state in the insular cabinet, has left for Havana by the steamer San Ignacio, en route for the United States. Before his departure he had a conference with the colonial commissioner, now inquiring into questions relating to the civil government of Porto Rico, to which much importance is attached. The commissioners declined to make public the nature of the conference on the ground that it must be kept private for the present. Before leaving Havana for the United States Senor Rivera will confer with General Maximo Gomez.

Pope's Recovery Celebrated.

ROME, March 13.—A solemn Te Deum was celebrated at St. Peter's cathedral yesterday to commemorate the pope's recovery and his coronation in the Sistine chapel on March 3, 1878. Cardinal Rampolla, papal secretary of state, officiated in the presence of an immense congregation. In the evening the Piazza di San Pietro was illuminated.

American Coal Supersedes English.

HARTLEPOOL, England, March 13.—A large steamship owner has received overtures from American agents to carry American coal to Europe at from 11 shillings to 12 shillings freight per ton. North of England coal merchants are alarmed at the steady growth of the American coal trade to European ports that formerly took English coal.

Cross-grained as this ad, is the woman who boils her wash. --- No boiling when FELS-NAPTHA soap is used—but perfect results with lukewarm or cold water only.

PRAISE FOR THE NAVY

Naval Attache of the French Embassy Speaks Plainly.

SPLENDID RECORD OF OUR SEAMEN.

United States Stands High Among the Great Naval Powers—Advocates Armored Cruisers, Which Unite Speed With Power.

WASHINGTON, March 13.—Lieutenant De Faramond of the French navy recently arrived here in company with the French embassador, M. Cambon, to become naval attache of the French embassy. Lieutenant De Faramond has had wide experience as a naval observer, following the Japanese and Chinese vessels through the China-Japan war and now coming here to study American naval methods. Speaking of the American navy Lieutenant De Faramond said:

"The American navy has attracted world wide attention within the last year, and this is leading European countries to send naval attaches to Washington. This will be the first time that the French government has had a naval attache with the embassy. A German naval officer is coming to the German embassy, and other countries doubtless will follow in the same line. Since the Spanish-American war this country affords splendid facilities for naval study. It was the first real test of modern fighting vessels, and naval science must draw its conclusions largely from what the American navy accomplished during the war with Spain. I think it is universally conceded in Europe that the American navy made a splendid record not only in a general way, but in technical matters of naval detail. It demonstrated the effectiveness of the rapid fire gun of medium caliber rather than the larger guns. It also seemed to show that the power of a navy is more in its weapons of attack and offense, its capability of giving blows rather than in its heavy armor and capability of resisting blows.

"We in France were quite aware of the growing power of the American navy even before the recent war. Our chief naval constructor, M. Bertin, came to this country prior to the war and made a tour of your dockyards, arsenals etc. On his return he made an official report showing the great improvements the American naval construction had brought about, particularly in the arrangement of bulkheads and in the distribution of armor so as to protect vital points. We also know your American guns and are using the Larvey steel American process, which has been found entirely satisfactory so far."

Lieutenant De Faramond says foreign naval observers are not only interested in the results of the war, but are also observing the large amount of naval construction now in progress in the United States and the navy improvement in progress. From Italian naval circles he learns that the United States is today to be rated second among the great powers in point of warships under construction. This tonnage is computed as follows: Great Britain 1,500,000 tons; United States, 750,000; Japan, 47,000; Russia, 250,000; France, 750,000; Germany 750,000; Italy, 2,000.

"An interesting line of inquiry," said Lieutenant De Faramond, "was as to why you use hot, fine and heavy shells instead as we do, large and heavy shells. Experiments in Europe against the lighter, swifter cruiser. The Brooklyn is essentially a home ship and is not fitted, owing to her bulk and lack of coal capacity, for crossing the ocean or for long cruises. The French navy has in commission four ironclads in the Mediterranean and eight in the northern squadron, but these are purely defense vessels and never leave the home ports. The performance of your battleship oregon in running 13,000 miles around South America was remarkable for that reason, and her present trip across the Pacific is equally remarkable. But, judged by the usual naval standards, an armored cruiser would have been much better equipped for these long voyages. She has the speed, the coal and at the same time sufficient armor to make her defensive powers almost equal to those of the ironclad."

"Admiral Dewey is generally recognized abroad as entitled to rank as one of the great naval commanders," said Lieutenant De Faramond. "Such a man does honor to the naval fraternity the world over."

Watson Declines a Judgeship.

HARRISBURG, March 13.—Governor Stone has received a letter from David T. Watson of Pittsburg, dated March 11, thanking him for the honor conferred in tendering him the appointment of supreme court judge. Mr. Watson says that after the best consideration he is able to give the matter he finds himself unable to accept the appointment. Mr. Watson is a leading member of the Pittsburg bar and is one of Senator Quay's counsel in the conspiracy charges now pending.

Trains Blocked In Michigan.

DETROIT, March 13.—Nearly all points in the upper peninsula of Michigan report railway traffic completely blocked by snowstorms. A special to The Tribune from Bessemer, Mich., says: "The heaviest storm in the history of the snow belt is prevailing. For 48 hours all trains have been snowed in at different places. All streets are blocked with banks of snow from 4 to 8 feet deep."

The Australian Hurricane.

BRISBANE, Queensland, March 13.—It is now known that no fewer than 250 lives were lost in the recent hurricane that swept the northeast coast. Only a few white people were among the victims.

Small Pill. Small Dose. Small Price.

THE PAVONIA'S EXPERIENCE.

Officers and Crew Arrive at Liverpool—A Terrible Ordeal Passed.

LIVERPOOL, March 13.—The Cunard line steamer Pavonia, Captain Atkins, from Liverpool Jan. 24 for Boston, which was towed into St. Michael's on Feb. 13 disabled, has arrived here in tow of two tugs from Ponta Delgada, Azores. The officers maintain the utmost reticence regarding the steamer's experience.

It was gleaned from the crew, however, on their dispersal that the Pavonia passed through a terrible ordeal. Her troubles began with a terrific gale on Jan. 30. For three days the engines were stowed, and mountainous seas tossed the Pavonia like a shuttlecock. Then her boilers began to move in their cradles and to bump against each other. It is not true, though, that they bumped her sides, for if this had been the case the crew say she would not have floated long.

Eventually the engineers, after the most arduous labors, secured the boilers with ropes and chains, and the bumping ceased, but it was found that the steam pipes were broken.

The crew, it appears, never lost confidence, though they assert that the vessel rolled so tremendously that it would have been possible sometimes to walk on her inner sides. Three boats were lost, part of the port rail and the galley were carried away, and the bakehouse was stove in. Altogether, as the Pavonia now lies at the dock, she presents a pitiably damaged condition.

SAN JUAN HILL.

Probability of Its Purchase For Public Park Site.

SANTIAGO, Cuba, March 13.—A movement is on foot here to persuade the United States government to purchase San Juan hill to be used as a public park. The idea is that a certain portion could be set apart to be used as an American cemetery and the site of a mortuary church. A few thousand dollars spent upon the rest would make a beautiful recreation ground, including a half mile race track, a baseball diamond and tennis grounds.

General Leonard Wood, military governor, and other prominent Americans favor the project, believing that if the land can be obtained at a reasonable figure the suggestion should be carried out in memory of the heroic charge of the American troops.

Senor Bacardi, mayor of Santiago, yesterday planted a tree of liberty in the Plaza Dolores in the presence of more than 3,000 children, representing the different schools of the city, as well as a large concourse of citizens. He spoke of the glorious deeds of Cuban patriots during the last 30 years and of their up hill struggle in the face of immense odds. He paid a warm tribute to the good work done by General Wood during the American occupation and gloriously prophesied regarding what will be done "when the Cubans manage their own country without assistance."

Other speakers followed in the same strain.

CONDENSED DISPATCHES.

Rats fatally gnawed two sleeping children in Dorchester, Mass.

Mrs. Kooley, a noted London actress, is dead in her ninety-third year.

Ninety-nine ballots have been cast in the Delaware senatorial contest without result.

Granite cutters at Quincy, Mass., after a two weeks' strike, will resume work at advanced pay.

The Cuban assembly has voted to impeach General Gomez and remove him from the army.

General Joe Wheeler has denied the report that he is to marry Mrs. George W. Childs of Philadelphia.

The fishing sloop Startle, from Provincetown, has gone ashore in the fog outside of Wood End, Mass.

The transit of Meade has sailed from New York with $1,250,000 in silver dollars of the $3,000,000 promised to Cuban troops.

The cruiser Chicago has arrived at Hampton Roads. She is to be Admiral Howison's flagship on the south Atlantic station.

At Boise City, Texas, General Walker shot Attorney W. S. Hamilton, inflicting serious if not fatal injuries, and was in turn severely wounded by Hamilton.

Talien-Wan to Be a Free Port.

LONDON, March 13.—According to a dispatch to The Daily Mail from St. Petersburg, Talien-Wan, the Russian fortified port in the Liau-Tung peninsula, will be opened as a free port on the completion of the Manchurian railway in 1903.

Every man watches his balance in the bank, and his balance in his cash account, pretty closely. There is another ledger account that the average man entirely forgets to his own undoing. It is his account with death. It is more important than a "profit and loss" account, for its a "life and death" account. It is a man's duty to himself and family to look up this account once every day and see that the balance is on the right side.

It doesn't pay to let this account run on, and have it debited with indigestion, and then impure blood, and finally nervous exhaustion, or prostration, or deadly consumption. When these diseases come it means a debit balance with death triumphant in the blood red ink of another life sacrificed on the altar of foolish overwork and neglect of health. Dr. Pierce's Golden Medical Discovery makes the appetite keen, its digestion perfect, the liver active and the blood pure. It is the great blood-maker, flesh-builder and health-forger. It makes firm, healthy flesh, but does not produce corpulence or raise the weight above nature's normal. It cures 98 per cent. of all cases of consumption, bronchial, throat and catarrhal affections. Honest dealers don't urge substitutes.

"My wife had suffered for seven years with dyspepsia, sick headache and costiveness," writes Mr. Alonzo B. Jameson, of Dunbarton, Merrimack Co., N. H. "We tried many doctors and many kinds of medicine, but all were of no avail. We purchase of six bottles of Dr. Pierce's Golden Medical Discovery, which together with the 'Pleasant Pellets,' has entirely restored my wife's health. We cannot say enough to you in thanks for these valuable medicines."

It may save a life some day. Send 21 one cent stamps, to cover cost of mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y., for a paper covered copy of Dr. Pierce's Common Sense Medical Adviser; cloth binding 10 cents extra. Contains 1008 pages, over 300 illustrations and a valuable medical library in one volume.

Ideal Treatment for Rheumatism.

The "Mystic Cure" for Rheumatism removes at once the Rheumatic Poison from the system and the disease immediately disappears whilst the "*Mystic Life Renewer*" builds up the shattered nervous system, improves the digestion and restores the general health. It is the greatest cure for all Nervous Diseases and Weaknesses, as well as the *most Powerful Nerve Builder* known. Sold by J. E. Mills, druggist, 4 Empire Block, North street, Middletown.

CASTORIA.

Bears the Signature of Chas. H. Fletcher. This Kind You Have Always Bought

Dr. Bull's COUGH SYRUP

Will cure a Cough or Cold at once.

It positively relieves all throat troubles. Small doses. Price 25 cents at druggists.

Robbed an Old Lady.

Provincetown Mass was recently set in an uproar by the report that one of its citizens, Mrs Thankful Chapman seventy four years old and a native of the town, had been the victim of a bold and aggressive robber Several unsuccessful attempts were made to discover the perpetrator of the crime and recover the stolen property but it was several weeks before his identity was fully established In the meantime the victim was suffering greatly both in body and mind and it was feared she would not survive the shock In speaking of her condition at the time Mrs Chapman says

"I suffered extreme nervousness for some time could not sleep but would be night after night tossing and rolling about until I was completely worn out At spells my mind was greatly confused, and sometimes a numbness would settle down over me and I could not move Then I began taking Dr Miles Nervine and the very first night I slept like a babe I got better from that day on, and am now enjoying excellent health

Dr Miles Nervine is people's greatest enemy It drives out the poisonous germs, replenishes the nervous forces overcomes the excessive waste of the system and replaces all that disease has robbed it of It is 1 and cures

A trial package of Dr Miles favorite treatment for the grip consisting of Dr Miles Nervine Dr Miles Anti Pain Pills and Dr Miles Nerve and Liver Pills will be sent absolutely free of cost to any person sending name and address on a postal card requesting the same and mentioning the name of this paper Address Dr Miles Medical Company Elkhart Ind
